

Dodgeball Rules

Rules

- Balls are placed on the diving line while players must be touching the back of their court
- If you are hit you are out
- If you catch a ball you can either get the person out that threw it OR bring another person in... not both
- If the ball bounces and then hits someone, they are not out
- No head shots, you are not out if you get hit in the head

Scoring

- You get a point for every person you get out on the other team when time is up OR when all the other players are out
- We will have a wildcard bid for the finals (each team gets a chance throwing at a leader, the closest to pegging a leader, butts-up style, gets an automatic bid into the finals)
- Have the refs report the scores
