**Key ideas for this semester:**

- Welcome: quality and welcoming esp. first couple of weeks
- Games: mix it up and unpredictable, minimal instruction but not chaos
- Skits: set up well for club talks, use music and create more of a contest feeling
- Talks: prayerful, of depth and quality
- Announcements? letters home?
- end on time every week

**Behavioral challenges:**

- some students feel they own the place
- good problem to have, they are having controlling themselves
- involve the kids that are struggling
- plan to help:
  - ask once --> touch shoulder --> "hey I need you to..."
  - explain it to the whole club and ask them to help you
  - "here's what I need you to and why I need you to do it"
  - Occasionally, be serious
